When there is a conflict in uniform color, it is expected that the first team listed on the match schedule is to wear light/white color jerseys and socks. When there is a conflict in uniform color, the team listed second on the NL schedule must change its jerseys and socks, except in situations where the team listed first is wearing dark colored jerseys and/or socks, then the team listed first must change to light/white color jerseys and socks. The Referee shall define what constitutes light and dark colored jerseys and socks. If any player/s on the roster are club pass carded players with the same player number as another player on their team, then the number must be edited with tape and the game card should be edited to match.
